EDWARD PREVENTS A SCANDAL

DUCHESS OF
MARLBOROUGH.

Rumors of a rupture between the Marlboroughs and the intention of the Duchess, who was Consuelo Vanderbilt, to sue for a divorce, have been many. It is the gossip of London-town that such a course was only stopped by the interference of the King, who is said to have brought the hair-brained young Duke to his senses.

Senator Hemrich
Comes To Our Aid

A STATE OF WASHINGTON LEGISLATOR WHO VISITED THE ISLANDS A YEAR AGO AND MADE MANY FRIENDS HERE HAS INTRODUCED INTO THE WASHINGTON SENATE A MEMORIAL TO CONGRESS FOR THE BENEFIT OF HAWAII.

Senator Andrew Hemrich, member of the upper house of the Senate of Washington Legislature, has proven himself a friend of Hawaii. He was in Honolulu about a year ago, and made innumerable friends here. When he went away from here he promised that he would help Hawaii whenever he could. He has redeemed that promise. He has introduced in the State of Washington Senate the following Memorial to Congress asking for a modification of the Chinese Exclusion Act to meet the labor requirements of Hawaii:

SENATE MEMORIAL No. 9.

By Senator Hemrich.

WHEREAS: The principal industry of the Hawaiian Islands is now, and for a great many years has been, the growing of sugar-cane and the manufacture of sugar therefrom, and

WHEREAS: The climatic conditions of said islands is such, that members of the white race are unable to perform common labor on the plantations of those islands, and the raising and cultivation of sugar-cane as aforesaid has been heretofore carried on by Chinese and Japanese labor, and

WHEREAS: Since the admission of said Hawaiian Islands to the United States of America, contract labor has been prohibited by "The Exclusion Act" with the result that wages in said Hawaiian Islands, since their admission to the Union, have been greatly increased and are now far in excess of wages paid to laborers upon the farms of the different states and territories of the United States, which has resulted in very grave damage to such sugar industry in said islands; now therefore,

BE IT RESOLVED: That the Senate of the State of Washington, the House of Representatives concurring, hereby respectfully memorializes the Congress of the United States, to amend said "Exclusion Act" so that contract labor may enter said Hawaiian Islands for the purpose of seeking and performing labor therein.

And your petitioners will ever pray.

SHIOZAWA TELLS
ABOUT IWILEIEDITOR OF JAPANESE DAILY
SAYS WOMEN TOOK COOPER
FOR GOVERNMENT DOCTOR.

C. Shiozawa, editor of Hawaii Shinpo, was before the Senate committee which is investigating Iwilei yesterday afternoon. He said that all the women in the district thought that Cooper was the government physician and that they had to go to him for examination. Shiozawa said:

"I stated in my paper that Dr. Cooper was not the government physician, but they did not believe me. All of the circumstances tended to the creation of this impression in their minds. In the first place Dr. Cooper was appointed inspector of Iwilei. That appointment was afterwards revoked, but the women did not understand the revocation. Then, they had been in the habit in the old days of going to the office of the Board of Health for examination. Well, under the new order they said that the Board of Health had established a branch office on the ground for their convenience and they went to Dr. Cooper. To strengthen this impression was the fact that Dr. Cooper was a member of the Board of Health, giving him official status.

"The women did not complain particularly of the price charged them, but thought, as many women also came for examination from the outside districts the rate should be lower. I was told by the Japanese headman down there that the income from this source was about \$800 a month.

"Yes, High Sheriff Henry told me that the women could go to any doctor they pleased, and some Japanese doctors made inquiry about it, but none of them cared to go there and compete with the government physician."

TANTALUS AND
WATER PROTECTIONA LETTER FROM SUPERINTEND-
ENT HOLLOWAY ON THE SUB-
JECT—URGES RESERVATION.

The following is a letter received by the Governor today from Superintendent Holloway regarding the Tantalus reservation.

Hon. George R. Carter, Governor, Territory of Hawaii, City.

Sir: A bill was recently introduced in the Legislature which contemplated the setting aside of certain Government properties on Tantalus and Punchbowl Heights, also at Waikiki, as public parks.

The proposed Tantalus reservation covers land at the head of Makiki Valley, having an area of about 177 acres, not including certain private properties used for residence purposes. If forms a water shed immediately tributary to the government water system in Makiki Valley which finally empties into the Makiki reservoir, and as far as I can ascertain, this important feature was not mentioned during the discussion of the bill in the Senate.

In view of certain improvements which if carried out, will provide a gravity supply of water for the city of Honolulu, it is certainly most essential that every precaution be taken to prevent possible contamination of the water heads which are to be used.

The land in Nuuanu valley above the entrance head to the government reservoirs was set aside by the Legislature several years ago, and there can be no question as to the desirability of such action where water sheds supplying water for drinking purposes are concerned.

In planning our systems, the possible infection of the water heads is always considered of first importance, and large sums are frequently expended in the purchase of private lands surrounding streams used for city water supply.

In the present instance, the land is the property of the government, and

*Calling at Manila.		
*Date of Departure from Honolulu.		
U. S. A. Transports will leave for San Francisco and Manila, and will arrive from same ports at irregular intervals.		

It seems to me, aside from the desirability of having a park on Tantalus Heights, the water question should be carefully investigated.

Most all of the sites suitable for residence purposes have already been acquired from the government and the remaining land is not of much value except for forest or park purposes. The preservation of the forest naturally improves the locality as a source on supply of water. If may be claimed that under existing conditions, the water is liable to be affected by cesspools and drainage from the houses, but this should not deter the government from taking every precaution to prevent further infection. I believe, if possible, this matter should be further considered by the Legislature.

Yours respectfully,
C. S. HOLLOWAY,
Superintendent of Public Works.
